TECHNOLOGIES USED IN MY PROJECTS

.NET FRAMEWORK

- Working as a developer in few companies I was responsible for creating web applications using: ASP.NET MVC, ASP.NET Web Forms, and ASP.NET WebApi, working with numerous version of Visual Studio.

MICROSOFT AZURE

- As Certified Azure specialist, I worked on application cloud migrations. Familiar with Azure WebApps, Storage, Virtual Machines, Azure SQL, Azure AD and others

SHAREPOINT

- As Certified developer I implemented and maintained various extensions and applications usually in provided-hosted model. Worked with many different versions: On-premise 2007, 2010, 2013 and SaaS SharePoint Online.

SITECORE

- Working as developer on main public website one of the biggest bank in the world. Started with Sitecore 7.2, participating in upgrade to 8.1, developing new components and templates for the website using Web Forms MVC ASP.NET, Apache Lucene indexes, Glass Mapper and hedgehog TDS.

WEB FRONT-END

- Usually I use simple Front-End stack: HTML, CSS (SASS), JavaScript (TypeScript), jQuery with additional plugins like jQueryUI and needed JS libraries (js-plumb, D3, bpmn-js and others)

Other

- Code repositories: GIT, TFS, MercuryHG, SVN (Github, TortoiseHG, Visual Studio Online, Bit Bucket)
- BI Tools (SQL Server Reporting Services, PowerBI, Tableau)
- CMS (Drupal, Joomla, PrestaShop)
- VBA Tools (Excel, Access)
- Office Add-ons
